

Trans-disciplinary Innovation Program (TIP)

Calling entrepreneurs, scientists, engineers & designers from around the world to ideate and innovate ventures in the 'Start-Up Nation', and to get inspired by 20 Nobel Laureates

Innovative 10-week international program integrating:

- ✓ Cutting-edge curriculum in computer vision, big data/cyber, and bioengineering
- ✓ Entrepreneurship training, site visits and workshops
- ✓ Mentorship by top mentors and investors
- ✓ Interaction with 20 Nobel Laureates

Computer Vision

Cyber/Big-data

Bioengineering

Entrepreneurship

The program will take place between July 5-September 10, 2015, at the Hebrew University of Jerusalem's Edmond J. Safra Campus. The University-subsidized course fee is US\$5,500. For those requiring lodging and a meal plan, the total fee (including tuition) is US\$8,000. Tuition includes transportation, site tours, and entrance fees. A limited number of partial and full scholarships are available for outstanding candidates.
